

Edit News

When user clicks on the news title from the grid of news control panel, he will be shown the same popup that was used to add the news, difference will be that, all the fields shall contain the respective data. Process of editing the news is same as adding news.

The screenshot shows a web application window titled "Edit News". It features a tabbed interface with four tabs: "Basic Detail" (selected), "Related News", "Select Dreams", and "Publishing Options". The "Basic Detail" tab contains a text input field labeled "Last Date for Registration in LMS", a larger text area labeled "News Content", and a "Select Media" button with a blue icon of a hand pointing up. At the bottom of the form are "Next" and "Close" buttons.
