

Media Selection Panel

This panel will be accessible through the “Select Media” button given on pages and will be used to insert media item such as Images, Audio and Video into the pages.

1

Media Items

Thumbnails of media items will be provided in the grid form. Clicking on any of the thumbnail will insert that media item into the corresponding page.

2

Sorting of Media Items

Media items could be sorted on the basis of Name, Date Added, Category and Size.

3

Paging of Media Items

Paging of media items can also be done through this list, in case of large number of media items. Paging could be 10, 100 or All the media items. When paging is selected, a pager will be visible on the bottom of the Media Selection Panel.
