"Plan 02" is Ragdoll game what will be shown as above.

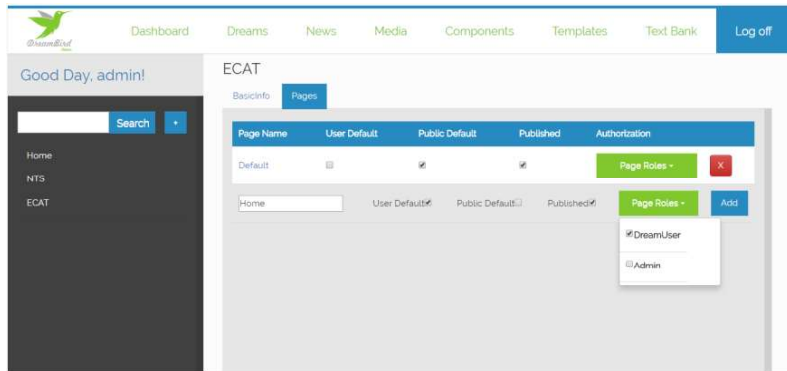

"Plan 03" will be shown as above.

if there is any assignment, than it will be shown to user as above.

Creation of Home Page for ECAT Dream

This tutorial will show how to create the home page for ECAT Dream. This page will be visible to the enrolled users and they will see the latest progress, activities, assignments and quizzes for selected dream.

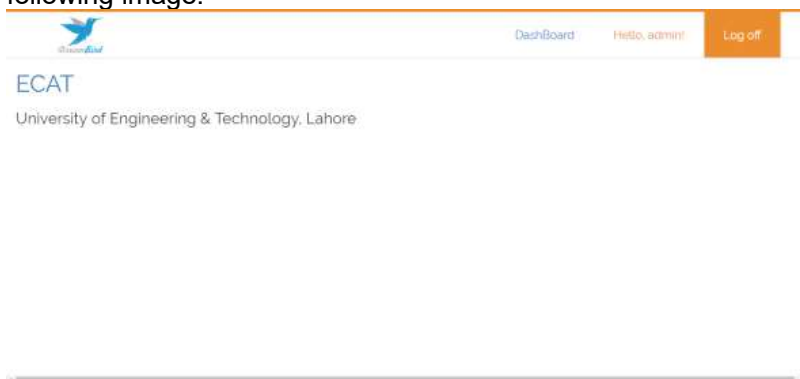

Step 1 : Addition of Page in the Page List

Add a page "Home" make it "User Default" and "Published", set its role to "Registered User and Enrolled User" and Click on "Add" button to add this page into the system. After adding, click on the page name that will open the page builder, initially, add a Top Menu Bar (Procedure explained in the previous tutorial), then add a Custom Text Bank in the "1" column and give the following markup.

```
<a href="~/DreamHome.aspx/ECAT/Default"
runat="server"><h1>ECAT</h1></a>
<h3>University of Engineering & Technology,
Lahore</h3>
```

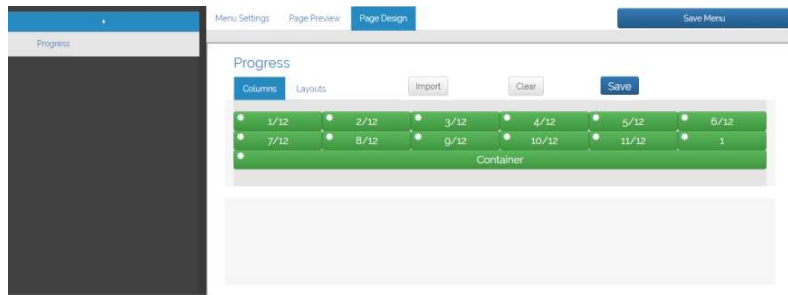

After saving and navigating to the page, it should look like the following image.

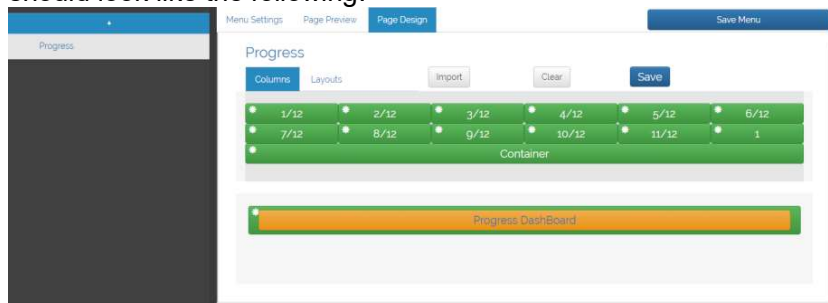

Step 2 : Creation and insertion of Lesson Menu

Now its time to add fun into the page, we will be adding Lesson Menu or Dream Menu into the page. To do it, add a "1" column, change its padding to zero and give class "content_wrapper", from Component List, add a "Lesson Menu" and Click Save. After saving page should look like the following image.

Your Comments Here

Now drag a "1" column into the page and add "Progress Dashboard" component from the component List. After adding, it should look like the following.

See, after saving its name has been turned blue. Now click on the blue link and you will see the admin page for "Progress Dashboard" Like the one given below.

Just check the checkbox "Show Sibling Progress" and click "Save". Close this window, save the lesson menu. Right now, no progress will be shown as there is no content for the dream, as the content will be added, progress will eventually appear.

Now, we shall add another main menu "Week 01" that will show the activities the user needs to perform during 1st week of enrollment. To add this, go to lesson menu admin page, press big blue (+) button, in the name field enter "Week01" in display name enter "Week 01" leave all other values default and click Save, this will add a main menu of entered name in the left list. Like the image given below.

Your Comments Here

Now, click on "Week 01", and click on "Container" check box, it will reveal the table for container entry on the right most side of the page. like the image given below.

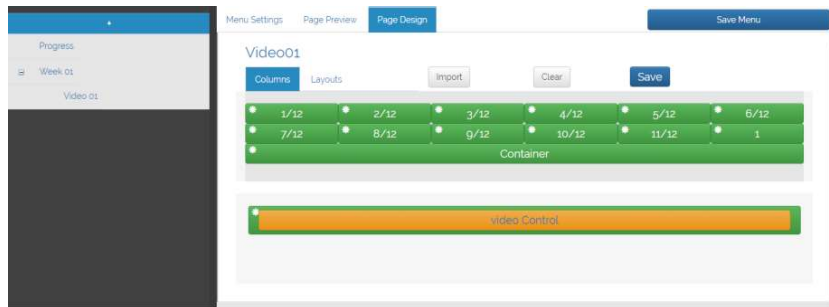

Name	Display Name	container	Remove
Video01	Video 01	<input checked="" type="checkbox"/>	Delete

Like the image shown above, Enter "Video01" in the name, "Video 01" in display name, and click add, then click the big blue "Save" button. This will add the sub menu in the left list as shown in the image below.

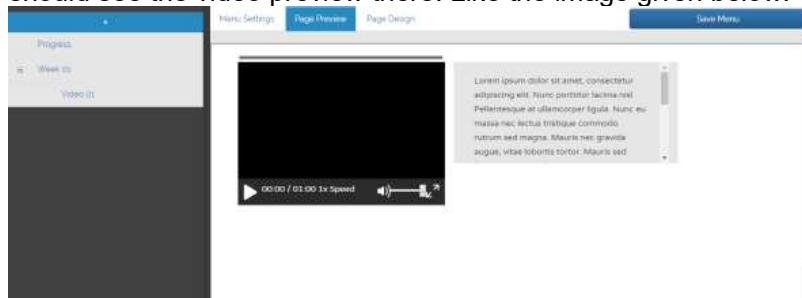

Name	Display Name	container	Remove
Video01	Video 01	<input checked="" type="checkbox"/>	Delete
		<input type="checkbox"/>	Add

Now, we shall add a video in the sub-menu "Video 01". To do this, click on that sub menu, change its menu type to "Video" and go to "Page Design" tab and there, drag "1" column and drag a "Video Control" in the page content area and click "Save" of the page builder button. Like the image given below.

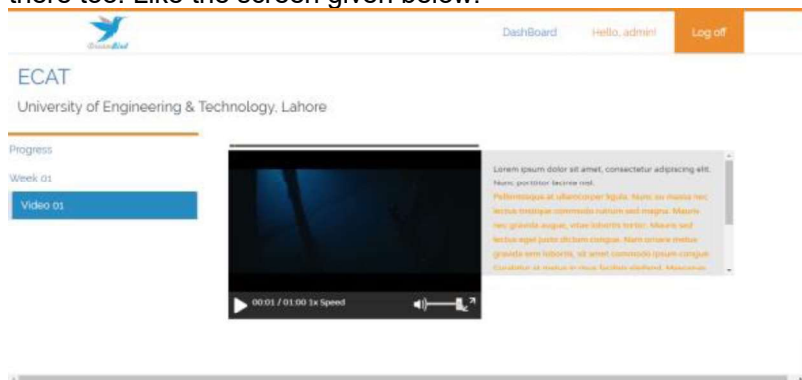

Your Comments Here

Now, click on the blue link "video control" and it will navigate to the admin page of video control. Select the video from media bank (Process described in the previous chapter) and save it. Now save the page again from layout builder and from the lesson menu save button. after saving click on the "Page Preview" tab, and you should see the video preview there. Like the image given below.

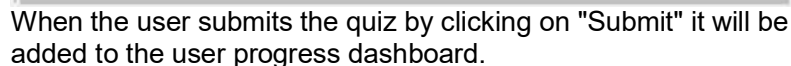

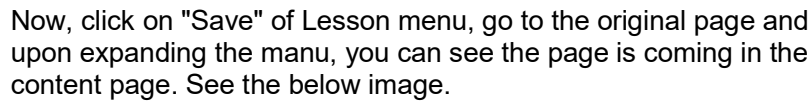

Now, go to the original page and when click on the sub-menu "Video 01" from the "Week 01" menu, you should see the video there too. Like the screen given below.

as it can be seen, video 01 is showing in the sub menu with transcript text highlighted. When the video is completed, it will be marked as completed in the progress menu.

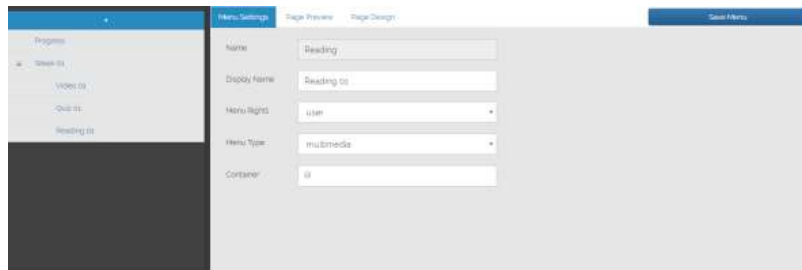

Now we shall add a Quiz in the sub menu. To do this, go to admin page of lesson menu, Add a sub-menu "Quiz 01" by repeating the earlier mentioned procedure, and change the menu type to "Quiz". and Click "Save" on top right corner of the page. This will add another sub menu in the menu "week 01", now click on that sub-menu "quiz 01" and go to page design, drag a "1" column in the

[illegible]

The screenshot shows the ECAT University of Engineering & Technology, Lahore website. The navigation bar at the top includes 'Dashboard', 'Hello admin!', and 'Log out'. The main content area features a 'Progress' section with a 'Week 01' progress bar. Below this, a table displays the 'Week 01' schedule, including 'Required' (GAT, Quiz) and 'Grade 01' (Due October 2018).

Now, we shall add a lesson into the Menu. To do this, go to the admin page of lesson menu, add a new sub-menu in the menu "week 01" namely "Reading" and change the menu type to Multimedia. Like the screen given below.

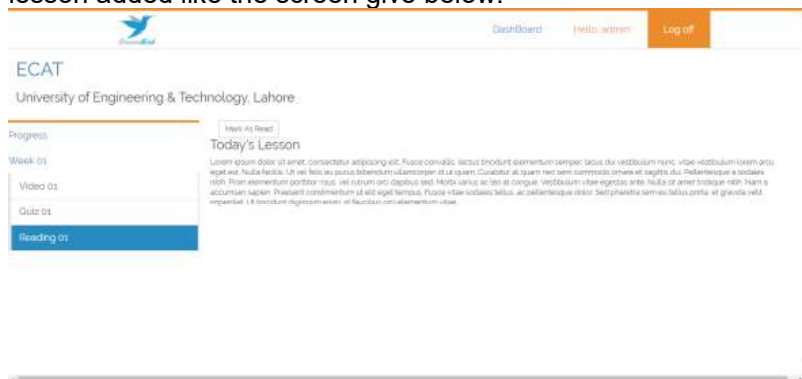

After saving click on the recently added menu, go to "Page Design" tab, drag a "1" column, add a "Multimedia control" and a text bank in the dropped column. Like the image given below.

Your Comments Here

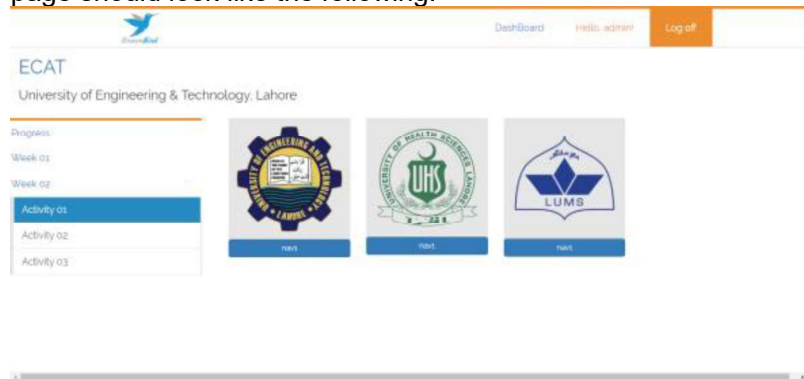

Click on the Blue link of "Custom Text Bank" and add the content for reading in the content area, give it a name and save the lesson bank. Upon saving and navigating to the page, you can see the lesson added like the screen give below.

When the user clicks "Mark as Read" its progress will be added to progress dashboard.

Now, we shall add another main menu "Week 02" and add three activities "Activity 01", "Activity 02" and "Activity 03" in it setting all three menu types as Multimedia. Step to add a main menu and sub menus is explained earlier in this tutorial. After addition, lesson menu admin page will look like the following.

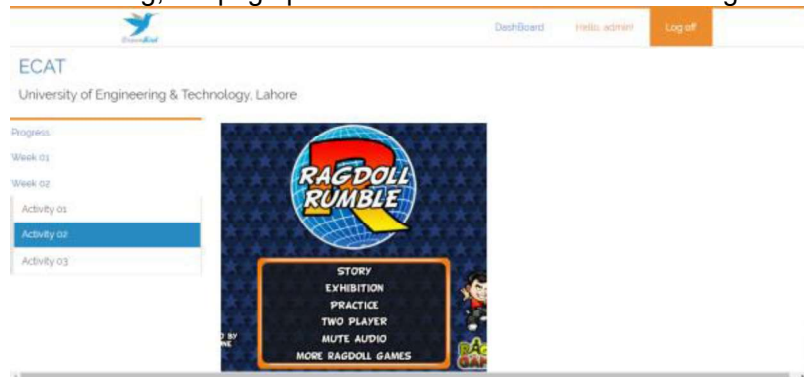

After adding this markup, update the images from media bank (procedure already explained) and save it. After saving, the dream page should look like the following.

For activity 02, we shall add a flash game "Ragdoll". Add a "1" column in the page desing of "Activity 02", add a custom text bank, Upload the .swf file through the file bank and enter the following markup in the text bank. In the "Value" and "Src" enter the copied file path in a way explained before.

```
<object width="500" height="500">
  <param name="movie"
value="../../../Content/flash/ragdoll_rumble.swf">
  <embed
src="../../../Content/flash/ragdoll_rumble.swf"
width="500" height="500">
</embed>
</object>
```

After saving, the page preview should look like the following.

For activity 03, add a "1" column and add a custom text bank and add the following markup in the text editor

```
<div class="col-md-3">
  <div class="col-md-12" style="background-
color: #e6e6e6; padding-bottom: 15px; padding-
top: 15px; border-radius: 50%;">
    
  </div>
  <br>
  <a id="" class="btn btn-primary"
style="width: 100%;"
href="../../../Components/NAV_General/www.yahoo.com"
```

Your Comments Here

```

target="_blank">nav1</a>
</div>
<div class="col-md-3">
<div class="col-md-12" style="background-
color: #e6e6e6; padding-bottom: 15px; padding-
top: 15px; border-radius: 50%;">

</div>
<br>
<a id="" class="btn btn-primary"
style="width: 100%;"
href="../../Components/NAV_General/www.yahoo.com"
target="_blank">nav1</a>
</div>
<div class="col-md-3">
<div class="col-md-12" style="background-
color: #e6e6e6; padding-bottom: 15px; padding-
top: 15px; border-radius: 50%;">

</div>
<br>
<a id="" class="btn btn-primary"
style="width: 100%;"
href="../../Components/NAV_General/www.yahoo.com"
target="_blank">nav1</a>
</div>

```

Correct the image paths from media bank, save the custom text bank and save lesson menu. Upon saving, the menu shall look like the following.

Now we shall add another main menu "Assignments" and its content. To do this, add a main-menu "Assignment" and in the page design, add a custom text bank. In the custom text bank, add the following markup.

```

<h4>Assignment Statement</h4>
<p>

```

```

    Lorem ipsum dolor sit amet,
consectetur adipiscing elit. Maecenas rhoncus
odio a vehicula posuere. Quisque efficitur, felis
non elementum molestie, turpis mi pharetra ex,
nec placerat arcu nunc non libero. Suspendisse ut

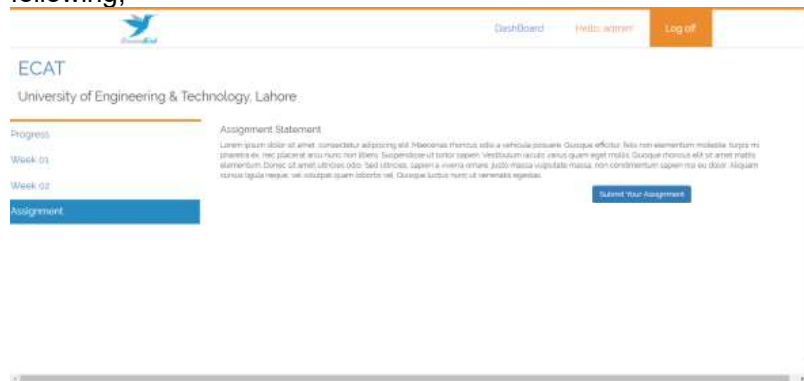

```

Your Comments Here

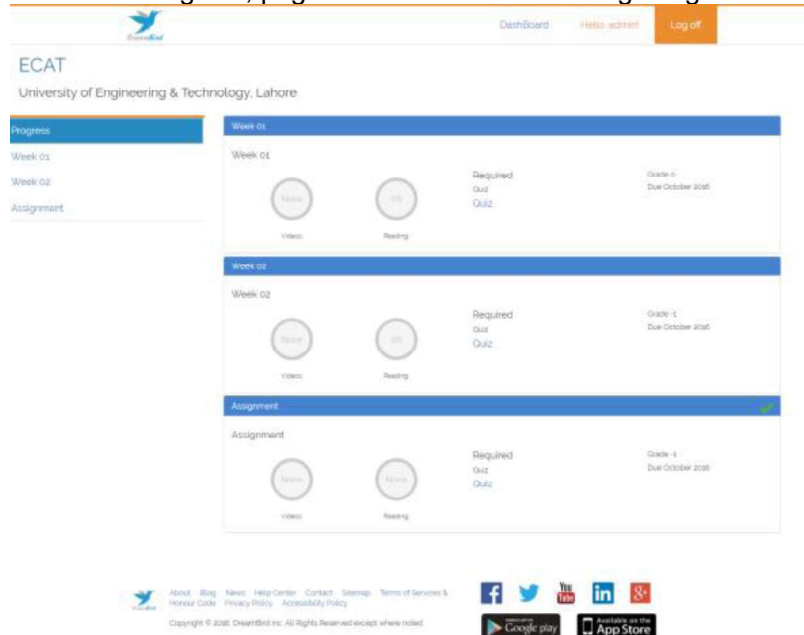

tortor sapien. Vestibulum iaculis varius quam eget mollis. Quisque rhoncus elit sit amet mattis elementum. Donec sit amet ultricies odio. Sed ultricies, sapien a viverra ornare, justo massa vulputate massa, non condimentum sapien nisi eu dolor. Aliquam cursus ligula neque, vel volutpat quam lobortis vel. Quisque luctus nunc ut venenatis egestas.

```
</p>
<div class="col-md-12">
  <div class="col-md-4" style="float:right;">
    <button class="btn btn-primary">Submit Your
Assignment</button>
  </div>
</div>
```

After assignment addition, the screen should look like the following,

Now in the final step, we shall add a footer in the page. Add the footer according to the procedure described in the earlier tutorial and after doing this, page should look like following image.

Awwww yeah, we are all done and our sample dream is ready. Repeat it as many as times as you can and become expert in dream designing. :)
