

## File Bank

Links to upload files into the system. File uploading process is same as described in the “Media Bank” introduction. It may be noted that “.exe, .com and .msi” type files are restricted and cannot be uploaded.

All the uploaded files will be shown in grid format. Clicking on the thumbnail of file will open a dialog that will contain the physical address of the file. That can be copied and pasted into the custom text bank for external referencing. File bank also have the facility to sort and page the file grid items.
